

Pfizer Paediatric (5-11yr) update

Setting up your booking URL (this can be set up prior to stock arrival)

1. In the left-hand menu of PlusOne, go to **Health Services Hub**, click on the **COVID-19 Program** tile and enable **Pfizer Paediatric COVID-19 Vaccination**
2. Click **Set up Booking Website** on the right hand side

3. Select the **FIRST** option **Use MedAdvisor to accept bookings and list on the MedAdvisor website (Recommended)**. Your pharmacy's Covid-19 Pfizer Paediatric booking URL is shown at the bottom. You can use this URL on various platforms such as your website/social media etc.

The above URL is only for Covid-19 Pfizer Paediatric bookings. If you prefer to use your pharmacy's **Master Booking Link** to promote your Covid-19 vaccination program (one URL where patients can select the service they wish to book for), click here to [learn more](#).

HealthDirect: MedAdvisor will provide your Covid-19 Pfizer Paediatric booking URL on your behalf to HealthDirect. It can take approx. 10 days for your booking URL to appear from the date you place your opening order.

If you are using a 3rd party booking provider (eg HealthEngine), please contact them directly to confirm their process for listing your booking URL on HealthDirect.

Note: Standard SMS costs apply for booking confirmation and booking reminders. <https://www.mymedadvisor.com/plusone/pricing>. To disable SMS confirmations and reminders, go to Calendar > Settings > Booking Confirmation and Reminder Defaults

Setting up calendar availability

To learn how to set up your calendar availability when offering multiple brands of Covid-19 vaccinations, view page 3-6 of the [Moderna Update](#) document.

Note: due to the age range of eligible patients, the ability to send an invite to this service via the Health Services Hub has been disabled.

Recording Pfizer Paediatric vaccination encounters

PlusOne supports recording of Pfizer Paediatric Covid-19 vaccinations, and this will automatically submit to AIR and PPA.

Simply select the **Pfizer Comirnaty 5-11 year old** option from the **Vaccine** drop down, and the relevant dose number from the **Dose number** drop down.

PlusOne 3.74.0.4 [Main] - Professional Services
